-  40 11°DB Miyuki 11
-  18 15°R golds plated 550
-  1 earring hooks
-  Fil C-Lon or Nymo black Beading needles

Techniques : Brick stitch, ladder stitch, peyote stitch.

Brick Stitch

1

Ladder Stitch

Attention

Don't use a high tension of thread, except to finish and secure your work.

Step 1

Take 60 cm of thread without cutting of the spool and work with the technique of your choice

1st technique - Brick Stitch : Pass the thread through the RO, make a half circle around it, pass again into the RO and repeat to do a half circle of thread on the other side. Then, work in brick stitch with 15 DB orange to do the 1st row.

2^{ème} technique - Ladder Stitch : Do a ladder with 15 DB orange, close into a loop and hang it around the RO.

Step 2

Pick up 1 DB orange and pass your needle in the following DB of the 1st row and continue to place your 15 DB orange to do the row 2.

2

3

Step 4

Continue to work in peyote, add 2 DB black as shown, pass through the following 3 DB orange of the row 3 etc. You add 5 groups of 2 DB black to do the row 4.

4

5

Step 5

Pick up 1 DB black, 1 R, 1 DB black, add them between 2 DB black of the row 4. Repeat 5 times to make the 5 branches of the star. Now, you have to hang the earring hook: Pass back into the R at the top of one branch, pick up 2 R, the earring hook, 2 R and close the loop. Pass the thread through the 5R and the hook as often as possible and then in a lot of DB to consolidate the earring.

Good beading !
