

Mr Jean ROSSINI, Chêne Rond President

Haven knows how much we have been longing for this event to happen !

From the 4th to the 6th of september 2009, thanks to the reliance of the FFBT, the FITASC, as well as the Coullons parish put on our club, the worldwide best clay shooters will gather on the chêne rond stand.

We have already had the opportunity to organize an European championship and several national championships.

Thus, to satisfy the requirements of such a big competition as the worldwide championship, we have acquired new grounds fitted with new equipment as you will see on this occasion.

The club team and myself will do our utmost to achieve this event and make it worthy of what a worldwide championship must be. We look forward to seeing you our stand.

Yours sportily.

Mr Hervé PICHÉRY, Coullons' Mayor

Coullons village in the Loiret county, welcomes the Worldwide Championship of Compak Sporting with great pride.

This important event will take place from 4th to 6th September 2009, at the SBT of the Chene Rond. More than 500 competitors will compete against each other for the final victory, one of which is the worldwide champion, Mr Jean-Paul Mordefroid.

Patricia and Jean Rossini's passion is therefore fairly rewarded.

After recently visited the site, I can testify to the considerate work that has been accomplished year after year on this outstanding site.

There is no need to say that this sport finds a comfortable place in our village of 2500 inhabitants, located at the Sologne's doors.

We know that the organisers and their volunteer teams have all put a lot of effort into offering you the best conditions. They have shown their care in promoting our county through their activities. Their private actions are an ideal addition to the local authority. We must support them the best we can.

Now let sport take over with its uncertainties, hopes and excitement.

May the best man win !

Mr Denis JULIEN, President of the French Federation of clay shooting

The International Federation of Hunting Shooting Sporting Weapons La **Fédération Internationale de Tir aux Armes Sportives de Chasse (F.I.T.A.S.C.)** accepted the French Federation of Clay Shooting (**F.F.B.T.**), as organisers of the **Worldwide Championship of Compak Sporting 2009.**

It's an honour for our federation to take charge of such an event from the 4th to 6th September and we wanted it to take place in the Loiret county, the heart of France, a tourist county with great architecture and hunting heritage which should fulfil both the historical building amateurs and hunters expectations.

Indeed the town of Gien, main town of the county with 15,000 inhabitants, famous for earthenware (crocker), continues an old tradition of the country and is home to the hunting museum. We highly recommend subscribers and accompanying persons who will come to the competition to find time to visit this museum.

Very close to Gien, a few kilometres away, the « Chene Rond » stand will host an international competition for the second time since its creation in 1993.

Mr & Mrs Rossini, the lovely owners of the stand rely on their experience and the success of the **2005 European Championship of Compak Sporting.**

Located on 25 hectares, 11 shooting paths will be set-up for the training and competition and will be available for the numerous countries represented and the 500 clay shooters who will attend.

I'm very confident of the success of this **Worldwide Championship**.

The French Federation of Clay Shooting has made, the reputation of know-how and expertise appreciated by the member countries of the **FITASC**.

We will make ensure we meet the level of all expectations.

But I will let the clay shooters judge for themselves and ask them to show off their talent in this quality environment, and to succeed in their sporting ambition or more simply enjoy the pleasure of participating in a Worldwide Championship in their preferred hobby.
