HOW TO WRITE AN ESSAY

✐ ***Writing*** is one of the language skills that help us express our ideas, opinions, feelings in form of words, sentences and paragraphs. Then, writing is not just filling blanks to create a writing format. In deed, writing is a piece of work which should have a form and content.

Parts of the essay:

① ***Introduction***: this is the 1st art of the essay where we present the *main idea* of the topic (subject).

② ***Body paragraphs***: this is the 2nd part of the essay where we have paragraphs. In order to develop or to support our essay we use details, views, examples, comparisons, contrasts,…etc, so we call them *supporting ideas*. In every paragraph, we should have a *topic sentence* that introduces the main idea of the paragraph.

③ ***Conclusion***: this is the final part of the essay where we conclude our writing. It contains the *concluding idea* that summarizes the topic in general.

✋ **V.I.P**: In order to have a good essay with a good form and content don't forget to use the *capital letter* and the *indentation* in order to separate the paragraphs. Below is a schema which describes the writing format:

An essay

Introduction _____
_____

Developing paragraphs

Topic sentence _____
_____

Topic sentence _____
_____

Topic sentence _____
_____

Conclusion _____
_____

A paragraph

Indentation _____
_____
_____
_____
_____
_____
_____ .
