

Telescope Knitting Mitts

I love fingerless mitts. They are so wearable.

This is a very basic pattern. Just make your mitts as you like : with one or two colors, with variegated or self striping yarn, with cabled ribbing, make them longer if you like... this pattern is just a guideline.

I used only 14 grams for each mitt, so look at you sock yarn stash and use the leftovers, or buy the most beautiful and expensive skein to make a pair.

Yarn: fingering yarn, sock yarn (Regia, Trekking, Opal, Jawoll...)

Gauge: 16 st/ 22 rows in the round = 2 inches

Needles: DPN 2, 5 mm

PM: place marker

M1R Make one Right / **M1L** Make one Left:

Cuff

Cast on 60 stitches on 4 DPN. Join to work in the round.

Rows 1- 15: K2 P2 (or if you prefer: K1P1)

Rows 16-30: K

>> You can also K2P2 (or K1P1) from row 1 to 30

Thumb gusset

Row 1: K30, PM, M1L, PM, K30

Row 2: K

Row 3: K30, slip marker, MIL, K to the next marker, M1R, slip marker, K30

Row 4: K

K 28 rows; repeat the increasing row #3 on each following rows:
#6, 9, 12, 15, 18, 21, 24, 28.

Total thumb st (between markers): 19

Next row: K to 1st marker, place the 19 gusset st on waste yarn, use the backward loop to CO 1 st, K to the end of the row.

Total of the st on the needles: 61

K 7 rows (or more for longer mitts)

Row 8: K29, K2tog, K30

Rows 9-14 K2P2 (or K1P1: make the same ribbing as for the cuff)

Cast off in K2P2 (K1P1)

Thumb

Put the 19 thumb st on needles

Row 1: K 19 st, pick up and knit 1 st in the st you cast on with the backward loop between hand and thumb. Total thumb st: 20.

Row 2-7: K2P2 (or K1P1)

Cast off in K2P2

Weave in loose ends.

And now knit with your mitts!
