Ingstad

Exprimant mon grand amour des torsades, ce châle puise son inspiration dans les motifs du nord de l'Europe, et quelques séries à consonance historique que j'ai visionné avec assiduité, admirant l'art consommé des artisans du costume et leurs magnifiques réalisations.

Tricoté par le côté, sa taille peut être modifiée. En longueur il suffit de répéter le cinquième et le septième motifs (un même nombre de répétitions pour chacun) autant de fois que vous le souhaitez. Si vous voulez en accroître la largeur, montez davantage de mailles qu'indiqué au début du travail et incluez ces mailles supplémentaires dans la partie indiquée en gras sur le patron. Bien sûr ces modifications sont cumulables, et elles entraîneront un changement du nombre de mailles d'une part, et d'autre part elles impliqueront une plus grande quantité de laine nécessaire, prenez ça en compte !

J'inclus des liens vers des vidéos dont 2 en anglais pour 2 points particuliers. Si vous ne pratiquez pas cette langue , pas de panique, elles sont très bien illustrées et c'est suffisant pour une bonne compréhension des points à réaliser.
Enfin, prenez le temps de bloquer (tendre) votre ouvrage quand il sera fini , cette action sublimera votre beau travail !
Amusez vous bien !!

mv : maille envers
MV : tricoter ensemble deux mailles à l'envers(soit une diminution de une maille).
mvt : maille envers torse. Vidéo : https://youtu.be/pjiYScRW8No
mg : maille glissée (de l'aiguille droite vers la gauche sans la tricoter avec le fil derrière la maille)
M : marqueur de maille.

m7 : augmentation de 6 mailles à partir d'une maille: voir la vidéo: https://youtu.be/UKC1JVHMibE
- mettre le fil derrière le travail
1- insérer l'aiguille droite entre la première et la seconde maille de l'aiguille gauche
- entourer votre aiguille droite avec votre fil comme pour faire une maille endroit, sortez cette boucle et laissez la sur l'aiguille droite.
2- glisser la première maille de l'aiguille gauche sur l'aiguille droite sans la tricoter.
-insérer l'aiguille gauche entre la première et la seconde maille de l'aiguille droite.
- entourer votre aiguille gauche avec votre fil comme pour faire une maille endroit, sortez cette boucle et laissez la sur l'aiguille gauche.
- remettre la première maille de l'aiguille droite sur l'aiguille gauche et recommencez l'opération au à partir de l'étape 1 , 2 fois pour obtenir un total de 7 mailles . Continuer à tricoter ensuite comme indiqué.

D7 : diminution de 6 mailles sur une base de 7: voir la vidéo : https://youtu.be/TcLeF2iShaw
- En arrivant aux sept mailles qui vont être diminuées, glisser les 4 premières mailles qui se présentent sur l'aiguille gauche vers l'aiguille droite .
1- Rabattre la seconde maille de l'aiguille droite sur la première.
2- Remettre la maille sur laquelle vous avez rabattu sur l'aiguille de gauche.
3- Rabattre la seconde maille présente sur l'aiguille gauche sur la première.
- Glisser de nouveau la dernière maille de l'aiguille gauche vers la droite et reprendre au stade 1 jusqu'à avoir diminuer un total de 6 mailles.
Enfin remettre la maille sur laquelle ont été rabattues les 6 autres mailles sur l'aiguille de gauche et la tricoter à l'envers.
