

Simple

A very easy sweater, quite short, without increases or decreases, with sober stitches that highlight the superb qualities of [Plassard's Neptune yarn](#). A cozy collar, a simple shape with dropped shoulders, 3/4 sleeves: an easy recipe for a first sweater or a work that goes up quickly thanks to a knitting in 6mm needles.

Advice :

Regarding the size: I give several as an indication, if you want to adjust the sweater to your measurements, make the necessary corrections. You can also play on the length of the body, the collar or the sleeves by adding rows.... it is according to your tastes (in this case, consider adding the necessary amount of yarn).

Sleeves: I knit both at the same time so I don't have to count the rows and make unfortunate differences between the two.

Finally Neptune is a hairy yarn, if you have to dismantle, put your work on a table and dismantle stitch by stitch, with small scissors in hand which will allow you to cut the small threads which get mixed up and block the dismantling!
