DAVID BROWN
990
IMPELMATIC

Power... Power...

POWER...

The demand for more tractor power, giving higher efficiency and increased productivity, is worldwide.

The all-new 990 Impulsiv—great powerful and great compressively equipped David Brown tractor was built—meets the demand on all counts. Indeed, this tough, high performance machine brings a new concept of all-around capacity which will appeal particularly to the progressive farmer and contractor.

Superb tractor weight is carefully provided. Indeed, every line in the specifications of the 990 Impulsiv is designed to make use of every ounce of power and weight. This high power-to-weight ratio, coupled with a unique combination of traction links, makes the 990 Impulsiv a non-slippery any-where tractor in its class on every farming job, whatever the hard conditions. And when it comes to economy, the 990 Impulsiv is in a class of its own.

EXTRA

P.T.O. Power

The multi-speed power drive enables p.t.o. drive equipment to be used in the most efficient and economical manner, saving fuel consumption and increasing the life of both tractor and implement.

The John Deere Standard p.t.o. working speed of 540 r.p.m. is selectable in either of two combinations. In low ratio (80 p.t.o. speed) is obtainable at the rated engine speed of 1,800 r.p.m.—ideal for driving Range Impulsiv rotary mowers, conditioners, etc. In high ratio, 540 r.p.m. p.t.o. speed is available at 1,500 r.p.m. engine speed—the perfect combination for lighter jobs such as spraying, planting, hay baling, etc.

Furthermore, the 990 Impulsiv provides for all construction to realize the American Standard requirement of

THE NEW DAVID BROWN TRACTOR is a complete new design, built on a modern chassis and engine which gives it the power and economy of a 20 horsepower tractor. It is a tractor that will give you the most efficient performance in any field of work, whether you are a small farmer or a large estate. It is a tractor that will give you the most efficient performance in any field of work, whether you are a small farmer or a large estate. It is a tractor that will give you the most efficient performance in any field of work, whether you are a small farmer or a large estate.
