

Skarboevik secondary school

Skarboevik primary school was built in 1969. Today there are 242 pupils and 21 teachers. The school is located in the western part of Aalesund and is known for a lot of cultural projects.

There is an own class for pupils from other countries. This year there are pupils from 27 different countries. Each year the whole school has a mountain day in autumn and a day skiing in the mountains in the winter season.

Pupils from the school won a technological contest between schools called Robolab. All the classes are having MOT lessons. This is a subject that is challenging their ethical minds.

The profile areas are;

- Evaluating for learning
- Basic subjects
- Pupils with special needs

Skarbøvik ungdomsskole vart bygt i 1969. I dag går her 242 elever sammen med 21 lærere. Skolen ligger i ytre del av Ålesund og er kjent for sine mange ulike kulturprosjekt.

Her er en egen klasse for innførings elever. Dette skoleåret har vi elever fra 27 ulike nasjoner. Hvert år har skolen en fjelldag på høsten og en skidag om vinteren.

Elever fra vår skole vann en teknologikonkurranse kalt Robolab. Alle klassene har MOT-timer. Det er et fag som utfordrer elevenes etiske tenking.

Skolen sin satsingsfelt er;

- Evaluering for læring
- Basisfag
- Elever med spesielle behov
