

**Extrait d'une lettre transmise à Jim Hart 7idonsuu le 6 décembre 2006 et toujours sans réponse!**

"I will finish by saying what his on my heart. The meeting in Pau June 2006 was an unusual and great opportunity for a lot of us to share with "earth messengers" of all cultures and horizons. The Haïda totem pole left behind has an offering is a very exceptional testimonial fraternal and universal bridge for human nature of all ages. It should not be a victim of the bureaucracy and at the mercy or delight of what ever ignorant selfish pride. We should avoid history repeating. This totem pole is worth getting together. Let's really make something good about it and not simply leave it many months in an open warehouse. It has to be love and respect!"
