

Château de Hauterive

Presentation and Philosophy :

Château de Hauterive covers an area of 21 hectares, extends over the second and third terraces of the Lot Valley to Vire sur Lot, the most viticultural town of the appellation and renowned for the quality and reputation of its wines .

Our vines are cultivated in a constant concern for the respect of the environment by practicing a reasoned culture. Soils of diverse and complementary nature of the argilo-gravel and clay-limestone types benefit from a favorable exposure.

Three farming methods for a successful alliance between the terroir and the grape predominant variety - Malbec - :

- Engazonnage or grassing of our vines to limit excess water.*
- Manual thinning or green harvesting to regulate yields.*
- Lighting on the rising sun side to improve ripening and sanitary conditions grapes.*

The wines of the winery (Selection) :

✓ **Cahors Château de Hauterive :** *A Cahors with a garnet supported drees. Intense energy dominated by aroma of red fruits and spices. Round mouth with silky tannins.*

✓ **Cahors Chemin de Compostelle :** *Beautiful ruby red color, fine and elegant wine with the scent of black berries, blackberries and scents of undergrowth. Very well balanced between finesse and tannins*

✓ **Cahors Prestige :** *Intense color with purple hues. The ripe, powerful nose exhibits aromas filled with red fruits mixed with spicy and toasty notes. The palate reveals a rich wine with a great complexity.*
